

Trade Show Office Available For Immediate Sale

Starrco manufactured an office for one of our strategic partners that they are using for a trade show display. The show will be over on Friday June 26th and the office will be available for sale.

The 10' x 10' SS3000-DL interior office is completely assembled and wired setting on a forkliftable steel base with commercial grade carpeting. The office includes the following features:

- 1 - 3068 commercial grade wood composite door
- 2 – Fixed windows with ¼" tempered safety glass & mini blinds
- Pre-wired electric package including 2 - T8 energy efficient fluorescent light fixtures, 1 – light switch, and 3 – 120v duplex receptacles.
- The electric components are wired to a heavy duty extension cord allowing the office to be relocated easily. Just plug it into a minimum 20 amp 120v outlet and it is ready for use.
- 2 x 4 acoustical grid ceiling
- Steel roof deck
- 180 CFM exhaust fan
- Smoke detector and fire extinguisher

Contact Starrco's project management team at 800-325-4259 for pricing and availability.
