The 5 STARR Blueprint

1) Rapid quote response
2) Versatile solutions
3) Superior manufacturing technology
4) Dependable and personable customer service
5) Fastest Installation

The **5 STARR Blueprint** means our customers experience accelerated uptime — getting back to business quickly. With our modular pre-engineered systems, we are proud to offer a clean, expedient and high quality solution that revolutionizes the concept of construction.

What Our Customers Say:

"Starrco is a leader in the industry for quality and durability."

"Products with first class fit and finish."

"Superior quality of products, quick response times, consistent meeting of delivery deadlines, ease of working through solutions together."

"I believe the entire company cares about the end result."

About Starrco

At Starrco, everything we do is designed with uptime in mind, from the initial quote to the final installation. We make sure all the pieces come together with precision and personable customer service. Established in 1965, we have a legacy of product excellence and loyalty to our customers and distributors.

In addition to our pre-engineered modular solutions, we manufacture Cleanrooms; floor to ceiling interior walls; Starrguard safety guard rail systems; and pre-assembled portable buildings.

Variety of Industries and Applications

We can meet your needs for space.

Our customers range from international companies to smaller shops. We've helped Caterpillar, Federal Express, Toyota, Georgia Pacific, Allied Signal, Mahle Pistons and more.

We partner with plant managers, architects, general contractors, industrial real estate brokers, Material Handling Products dealers and end users.

We can precisely fit any application, such as:

Administrative offices, shipping and receiving offices, conference rooms, Cleanrooms, cafeterias and break rooms. Not sure of all the possibilities? Just ask!

When change means construction. And time equals money. Call Starrco.

Quality products means faster installation. It's that simple.

Superior Manufacturing and High Quality Products

We are different because of our genuine emphasis on higher quality materials for all of our pre-engineered modular systems. This means faster installations and an accelerated return to normal business operations.

Less Stress and Downtime

In as little as 3 days, your business can be up and running. Starrco projects are completed in 25% of the time as traditional construction. In many instances, installation can be completed over the weekend, so operations can be up and running Monday morning.

Benefits of Choosing a Modular Solution and Using Starrco

7-Year Tax Depreciation

Current tax laws allow very favorable depreciation on all Starrco modular enclosures and portable buildings. These products qualify for a 7-year depreciation period, while conventional construction is depreciated over 39 years.

Flexibility for the Future

Modular is the true permanent solution because Starrco enclosures can be adapted and reconfigured to meet your future needs. You can add a room, a floor, and even dismantle and move the whole structure to a new location.

Construction of Choice

Starrco significantly reduces your capital expenditure because of the lower cost per square foot compared to conventional construction. A modular installation eliminates the typical dust, debris and chaos found on most job sites, and fewer trades are required. You're also not stuck with inconsistently made materials — with Starrco's one-of-a-kind window and door frame design, your enclosure will have a more finished look.
